Reinsurance:

On-going de-risking

15

2010 renewal

- ▶ A less troubled market climate than in 2008
- ▶ A renewal programme totally placed
 - Diversification of capacity suppliers to reduce the credit risk

Tariffs

- ▶ Tariffs increases under control
 - Force of nature: an inevitable but limited rate increase, due to storm Klaus
 - Other business lines: stable rates

Coverage of storm risk

- ▶ Reduced sensitivity to natural events, especially in cases of repeated events:
 - 25% decrease in the Group retention on event recurring every 150 years
 - 23% decrease in the Group retention in cases of 3 repeated events occurring the same year
- ▶ Stabilisation of programme ceiling
 - Protection against an event recurring approximately every 160 years
 - Cost stable over 3 years

Profitability in Life: actions over the long term

Profit-sharing
rates

▶ Rates at the market average

- High, low rates served in the market:

- In order to preserve wiggle room over the long term

Profit-sharing
funds

▶ Strengthening of profit-sharing funds

- % of mathematical reserves

Improvement
in efficiency

▶ Process optimisation: GGViE

- Management platforms organised by business line
- Cost optimisation
- Desegregated asset-liability management

Statutory solvency margin: margin reinforcement

Pro-active capital management and financial flexibility

Financial Flexibility: optimal management of hybrid debt

27

- ▶ Optimised capital management
 - In a difficult market climate:
 - › Decision not to call the 1999-2029 redeemable subordinated bond (TSR) at its 1st call date in July 2009
 - › ...in order to preserve the solvency margin
 - › An example of using subordinated debt as an equity-like debt instrument
 - Opportunism in terms of refinancing:
 - › Issuance of a redeemable subordinated bond in October 2009 in the amount of €750m
 - › Taking advantage of a market window:

- ▶ Constant desire to meet the expectations of our investors
 - Issuance of the redeemable subordinated bond (TSR) to repay the uncalled debt
 - 22/01/2010: early redemption of 1999-2029 TSR, 6 months only after the non-call

Financial flexibility

Financial debts

- ▶ Decrease in the Group financial debts at end 2009:
 - Debt-equity ratio⁽¹⁾ : -9.1 pts at 31.4% (vs. 40.5% in 2008)
 - €1,885m financial debts⁽¹⁾:
 - › Excluding the 1999-2029 redeemable bonds (called on 22/01/2010)
 - › €1,245m subordinated bonds⁽²⁾
 - › €1,000m credit facility drawn up to €640m

Credit facility

- ▶ A credit facility of €1,000m
- ▶ Sharp decrease in short term financial debts :

IPO

- ▶ From now on the Group contemplates the scenario to proceed with an IPO before any major acquisition

⁽¹⁾ excluding Silic debts

⁽²⁾ In addition, GSA issued perpetual super-subordinated bonds in October 2007 for an amount of €1bn, which are accounted as shareholders' equity instrument under IFRS.

Strategy and 2010 guidelines

2010-2012 strategic plan: Groupama keeps its course

30

Strategy

- Accelerate growth in France
- Achieve the international development
- Enhance profitability and operational effectiveness

2012 targets for organic growth, based on normal market conditions excluding exceptional events

Pursue our organic growth

- Group premium income: **+6.0% per year**
(CAGR 2009 – 2012)

Maintain high operational profitability to finance our growth

- P&C Combined ratio through the cycle: **100%**
(± 2 points)
- Group operating profit ⁽¹⁾ : **€700m in 2012**

To be amongst the top 10 European insurance companies in 2012 through a profitable and sustainable, organic and external growth

⁽¹⁾ Income from operations (cf. Definition in appendices)

The 2010 priorities:

Development

- ▶ Re-positioning of the GAN brand
- ▶ Development of direct networks:
 - Amaguiz (Health and Everyday Accident Cover solutions, banking products)
 - www.groupama.fr: Motor offer available on the group commercial website
- ▶ White label products
- ▶ La Banque Postale

Profitability

- ▶ Tariffs hike in non life insurance
- ▶ Fruits of previous investments and restructuring actions
- ▶ Synergies and development plans

Solvency II & risk control

- ▶ Development of the internal model
- ▶ Solvency II:
 - Pillar 2
 - QIS5
- ▶ Continue de-risking of asset portfolio
- ▶ Reinsurance policy: cat bond

Appendices

2009 EEV: methodology and hypotheses

33

- ▶ Scope of valuation
 - International: expansion of scope to Hungarian and Romanian subsidiaries, integration of Güven
 - In France: integration of GAM and recognition of the merger of the life entities
 - The scope of calculation on both International and French L&H activities cover ca. 97% of premiums, 96% of reserves

- ▶ Changes in methodology and assumptions
 - Financial assumptions determined as of 21/12/2009 spot conditions
 - Integrating a liquidity premium of 25 pbs into EEV calculations
 - › To account for the atypical liquidity situation observed in the markets
 - › To add to the swap rate curve
 - › Methodology of determining the liquidity premium is unchanged from 2008
